

REMARKS

In the Office Action of August 13, 2004, the specification was objected to as lacking proper headings. As a result, an amendment has been made to the specification to insert proper headings. The specification has also been corrected to delete the incorporation by reference of the characterizing portion of claim 1, and to instead insert the features of claim 1 in the Summary Of The Invention.

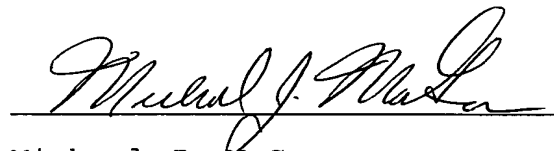

Claims 1 and 2 were objected to on the ground that the word "and" was superfluous in several appearances. This matter has now been corrected by an amendment to claim 1.

The abstract was also objected to as containing a reference to a drawing. This matter has been deleted by an amendment to the abstract.

Claims 1 and 2 were indicated as allowable in the office action, and such indication is gratefully acknowledged. The formalities requiring correction in the Office Action have now been corrected and a Notice of Allowance for claims 1 and 2 is respectfully requested.

Respectfully submitted,

By:
